# Cookie Policy

## 1. What are cookies?

Cookies are files or pieces of information that may be stored on your computer (or other internet enabled devices, such as a smartphone or tablet) when you visit this Website. A cookie will usually contain the name of the website from which the cookie has come from, the "lifetime" of the cookie (i.e. how long the cookie will remain on your device), and a value, which is usually a randomly generated unique number.

Two types of cookies may be used, "session cookies" and "persistent cookies". Session cookies are automatically deleted at the end of your browsing session. Persistent cookies remain longer on your device, for the duration of each specific cookie, and will remain valid until its set expiry date (unless deleted by the user before the expiry date).

Cookies can be used by web servers to identify and track users as they navigate different pages on a website and identify users returning to a website. Cookies do not contain any information that personally identifies you, but personal information that EMVO stores about you may be linked to the information stored in and obtained from cookies
