

LETTER OF ANNOUNCEMENT
Retrospective Upload Guideline

Monday, the 3rd of September 2018

Dear On-boarding Partner,

EMVO would like to advise you that a new document related to the 'Retrospective Upload' has been uploaded to the 'Technical Info Pack', Step 4.1 on the On-boarding Partner Portal.

The 'Retrospective Upload' functionality is made available as from the release 1.4 of the EU Hub and it is only relevant for multi-market products where not all associated National Medicines Verification Systems (NMVS) are live yet. In this way, On-boarding Partners will be able to upload their serialized data to all NMVS where their products are marketed.

For further details on the 'Retrospective Upload', please consult the document uploaded on the On-boarding Partner Portal. The document includes questions and answers and describes scenarios of the uploads performed before and after the release 1.4 of the EU Hub.

The EMVO team remains at your disposal for support and assistance.

In the event of any question or uncertainty, please do not hesitate to contact our Helpdesk:
