

LETTER OF ANNOUNCEMENT
Upload of data to the EMVS

28th May 2021

Please be reminded that even if a product has a (EU) wide authorisation, i.e. licensed in many markets, data **should only be uploaded to the EMVS for markets where the product in question is actively being marketed/sold** and should not be uploaded to markets where the sales are not active.

Loading data more widely (in markets where the relevant product is not being marketed) increases the data burden placed on each market which ultimately leads to higher costs and thus higher annual fees for MAHs.

Should you have questions, please do not hesitate to contact our Helpdesk.
