

LETTER OF ANNOUNCEMENT

Upload into the UKNI system of serialised packs physically placed on the UK market

28th February 2022

EMVO would like to inform you on how to cope with packs which are physically placed on the UK market.

Currently, OBPs are obliged to upload into the UKNI system all serialised packs placed on the Northern Ireland market.

EMVO strongly recommends OBPs to **upload into the UKNI system all serialised packs that are placed on the market in any part of the United Kingdom**. This is important as the small markets, Malta, Cyprus and Ireland, rely on medicinal supply from the United Kingdom.

If packs are not uploaded, the end-users in these small markets will receive an L5 Alert indicating that the pack is not known by the EMVS, obstructing the supply of the pack to the patient.

Should you have any questions, please do not hesitate to contact our Helpdesk.
