

**LETTER OF ANNOUNCEMENT**  
**Update: Renewal of EU Hub Public Certificates & alert endpoints**

28<sup>th</sup> June 2022

*The information below is important for your technical team and/or connection provider. Please forward this message to them. **If you are using EMVO Gateway as a connection provider, no actions are needed.***

As communicated in the [Letter of Announcement](#) shared on 26<sup>th</sup> April, the public certificate used by the EU Hub to send alerts will be updated with the deployment of the EU Hub Maintenance Release 1.11.02 to Production (PRD).

EMVO can now officially confirm that the EU Hub Maintenance Release 1.11.02 **was successfully deployed to the PRD Environment. Therefore, the OBP systems are required to update the alert public certificate (to the new one) with immediate effect.**

**On 18<sup>th</sup> July, the existing public certificate for all endpoints will expire** and any connections using it will cease to function. We cannot extend this date.
