

LETTER OF ANNOUNCEMENT
EU Hub Release 1.13: Postponement of deployment to IQE

25th April 2023

Due to technical reasons, the deployment of the **EU Hub Release 1.13 to the IQE Environment** has been postponed to **Thursday, 4th May 2023**.

A **10-minute downtime is expected** during the deployment in IQE. The downtime can occur anytime between 09:00 CEST and 17:00 CEST. Due to the nature of the deployment, EMVO is not able to indicate the exact downtime slot.

Be aware that older ciphers will be removed with the deployment of Release 1.13. To remain connected to the EU Hub, **we strongly urge you to start using the ciphers which the EU Hub is already supporting in all environments**. Please refer to [this](#) Letter of Announcement from March 2023 to find out more.

For further information regarding the items covered in the Release 1.13, we invite you to consult the Release Note, which together with the Software Development Kit (SDK) and other Technical Documentation associated with Release 1.13 is available in the Technical Information Pack on the OBP Portal.

EMVO will inform you when Release 1.13 has been successfully deployed to the IQE Environment.

Should you have any questions, please do not hesitate to contact our Helpdesk.
