

**LETTER OF ANNOUNCEMENT**  
**OBP Portal 2024: Final chance to cross-check your information from the old system**

18<sup>th</sup> December 2024

We are excited to announce that the transition to the **new OBP Portal** is successfully completed for all OBPs! To ensure that your MAH and Product Information data is accurate and complete, we kindly ask you to take a moment to review it. The link to the OBP Portal can be found [here](#).

**Important Note:** The old OBP Portal will be decommissioned on **31 December 2024**. After this date, access to the old portal will **no longer be possible**, meaning you will not be able to cross-check or retrieve any information from the old system. It is essential that you complete your data review before the decommissioning date to avoid any potential gaps or discrepancies.

Be reminded that you can also download relevant information concerning MAH and Production Information data and the Countersigned Participation Agreement from the old portal and store it.

We take this opportunity to also remind you about the available training videos on navigating easily in the new OBP Portal [here](#).

Additionally, we highly value your feedback on the migration process. Please take a moment to share your thoughts by completing [this short survey](#). Your insights will help us continue improving our services.
